GROWTH MANAGEMENT PLAN STEERING COMMITTEE

The Columbia County Board of Commissioners appointed the Growth Management Plan Steering Committee in the effort to update the current 2005 Growth Management Plan to reflect the changes within the county to meet state minimum planning standards. The revised plan must be adopted by February 28, 2011. Public input will be sought during this process. As a guide, it is suggested to limit comments to 10 minutes and to avoid repetition of similar concerns.
