

Final Inspection Checklist

Instructions: Prior to the release of a Certificate of Occupancy, you must have approval from each of the Departments below. Please contact Paula Munger in the Columbia County Plan Review, prior to beginning construction, to determine whether or not a plat and/or as-built will be required for your project. If the project requires the submittal of a plat and/or as-built, the Certificate of Occupancy will not be issued until it is approved. Not all projects will require approval from the Health Department.
